

***Sielox supports our Business  
Partners with proven solutions to  
benefit them and their clients.***

Sielox products and services empower systems integrators to configure a wide range of tailored solutions to meet different needs using the same powerful 1700 Controller, which simplifies service and support and reduces the number of products that need to be stocked and trained on.

Sielox's portfolio delivers cost-efficiency for tangible Return on Investment (ROI) improvements and lower overall Total Cost of Ownership (TCO). Equally important, Sielox's portfolio is structured to provide reseller partners with best-in-class OEM technology partners for both standalone and integrated solutions.

**Lockdown alert level and physical electronic locking of perimeter and interior doors from Sielox are the most comprehensive security layers in the marketplace today.**

*MCM Integrated Systems of Van Nuys CA has been a Sielox Business Partner since 1986. Rich McMillan, President of MCM, has a unique view of the access control industry based upon the success of his company, "Our industry is becoming increasingly complex and technically challenging, especially when it comes to access control. Some of our competitors handle many different access control product lines, requiring them to be Jacks-of-all-Trades, and masters of none. At MCM, we are specialists."*

*"Sielox listens to customers and to business partners and are very responsive to our needs. More importantly, they do what they say they are going to do."*

Sielox has provided innovative security layer solutions to select integrators for more than thirty-nine years. Our history began in 1979 as Sielox Systems based in Sunnyvale CA.

The company's unique and highly focused integrated suite of access and emergency notification solutions has proven that it offers the right combination for any size facility across numerous vertical and mainstream markets. Additionally, the company's go-to-market strategy is built on a network of predominantly regional and local systems integrators, which continues to provide value-added solutions to the end-user.

Sielox offers a portfolio of advanced solutions designed for stand-alone or integrated implementation, including: the Pinnacle® Advanced Access Control and Event Management Platform, the Intelligent 1700 Controller, the powerful Sielox CLASS Crisis Lockdown Alert Status System™ (CLASS), and the Sielox AnyWare™ Browser-Based Access Control Platform.

- Innovative Solutions
- Designed for easy install and service
- Core products ship same day
- OEM product integration and support
- GSA and PEPPM Purchasing Contracts
- Products made in USA

*Innovative Security Management Since 1979*

The Sielox Core Products line is designed by Sielox engineers and manufactured in the USA. Sielox Pinnacle software and the 1700 controller have been developed to meet or exceed any user requirement from entry level to enterprise-wide systems.

The marriage of advanced management software with an intelligent controller from a single vendor has been a proven technology and application success for our Business Partners and End Users since 1979. Built upon the Sielox access control innovation legacy, Pinnacle is a system designed with multiple layers of scalable control and the 1700 controller is unmatched in capabilities and serviceability.

With more than 250,000 controllers and tens of thousands of access control software systems installed since our start in Silicon Valley, Sielox continues to lead the industry with customer centric solutions, OEM integration like wireless locks and expert technical support.

Sielox AnyWare is our plug-and-play, browser-based access control solution affordable to small and mid-sized organizations. In today's world, you need to control and manage your security requirements from your desktop, tablet or mobile device. AnyWare allows you to easily deploy, manage and expand your access control requirements on the fly for up to 40 doors.

Innovation continues with the patented, multiple award-winning Sielox Class - Crisis Lockdown Alert Status System - providing critical situational awareness benefits to First Responders. Sielox Class dramatically improves emergency response time with real-time status updates to aid in response and resource deployment for any facility. First Responders no longer walk blindly into harm's way by viewing dynamic floor plans and chat in real-time, with updates displayed on their mobile phone, tablet or patrol car laptop.

**About Sielox**

Since 1979, Sielox has designed and marketed intuitive security management systems through a network of select business partners to a variety of end-users within commercial, education, financial, government, industrial, manufacturing and retail markets. From entry-level to enterprise-wide, Sielox scalable solutions exceed today's complex and demanding security environments. Headquartered in Runnemede, New Jersey, Sielox prides itself by providing "Made in USA" solutions.
