Database	Microsoft SQL 2008 or 2012	Database	Microsoft SQL 2008 or 2012

General

- More than 30 integration drivers available
- Access advanced features in drivers
- Ease of use (point and click operation)
- Powerful integration features
- Use macros to generate multiple actions from a single event
- Run a program from an icon or macro
- All events/user actions logged
- Generate reports
- Advanced incident reporting
- Display documents or web pages in embedded panels
- Time based permissions
- Pre-acknowledgement of alarms

Graphical Maps

- Support virtually any image format
- Modify layer properties on AutoCAD drawings
- Dynamic zoom in/out on map views
- Create unlimited views from any map file
- Icons placed on toolbar for global availability
- Add text labels to graphics/maps
- Create hot spots

Video Support

- Multiple monitor support
- PTZ cameras
- Drag and drop icons to video windows
- Drag and drop video between video frames
- Consistent OSD regardless of digital video system
- Live video sequences
- Alarm video sequences
- Alarm playback video sequences
- Each workstation has its own monitors and window layouts

Installation / Setup

- Easily deploy new workstations using Management Console
- Map domain support, partition large systems in logical subsets
- Fine-tune user permissions, users can be in multiple groups
- Import any image to be used for icons
- Cut and paste icons

Innovative Security Management Since 1979

Since 1979, Sielox has designed and marketed intuitive security management systems through a network of select business partners to a variety of end-users within commercial, education, financial, government, industrial, manufacturing and retail markets. From entry-level to enterprise-wide, Sielox scalable solutions exceed today's complex and demanding security environments. Headquartered in Runnemede, New Jersey, Sielox prides itself by providing "Made in USA" solutions.
